

Risk assessment relating to Coronavirus measures

This risk assessment is based on current Government advice and will be updated weekly as updates occur. Please ask to see the most current version.
 This risk assessment forms part of our planning to reopen as part of the Government Covid-19 recovery strategy and is based on the current information provided to support this.

Live Life Adventure Limited

Date of risk assessment: 4th June 2020

What are the hazards?	Who might be harmed and how?	What are you already doing?	Do you need to do anything else to control this risk?	Action by who?	Action by when?	Done
The country does not meet the '5 tests' and the expected reopening dates is delayed.	Planning put in place will be deferred to a future date, with information provided to all participants.	Ensuring that we offer future dates and will continue to work towards facilitating the participants being able to successfully complete the DofE expeditions they have been working towards.	Awareness with all parties that we will follow the current Government advice and that potentially this can impact upon our plans.	Live Life Adventure Ltd, DofE Manager Visit coordinator	From now on	
Transmission of the virus Due to Close Contact .	All. Risk of infection increases the closer you are to another person and the amount of time you are exposed	Providing individual tents with minimum separation of 2m. Providing individual cooking equipment and setting up as a social circle with 2m separation. Providing complete separation between teams. Team members to form a 'bubble'. For Canoe expeditions the seats are fixed at over 2m apart providing for easy separation For Walking expeditions encouraging social distancing within the team.	Activity leaders can provide coaching and instruction from 2m. Activity leaders monitoring team interaction to remind and encourage social distancing.	All	From now on	
Transmission of the virus Due to Contact with surfaces .	All. Risk of infection from contaminated surfaces.	Providing toilet facilities for each team. So that teams do not have to use campsite facilities shared with the public. Cleaning of equipment with effective cleaning products. Washing of all washable equipment before use. Quarantining of all other equipment for the recommended 72 hours between individual use.	Providing team toilet tents. Providing team camping toilets Provision of effective cleaning products Labelling of all equipment so that each participant has individually allocated kit to limit sharing.	Live Life Adventure Ltd	Reopening date.	

<p>Transmission of the virus</p> <p>Due to Hygiene</p>	<p>All. Risk of infection due to direct transmission</p>	<p>Provide handwashing and soap and water at base camp locations.
